Service fees of waste management 2018

The fees include VAT 24 %, collection, transportation and waste treatment. The fees cover collection carried out at regular intervals.

If a property has several waste container storage areas, a separate fee is charged for the emptying of the waste containers of each storage area in accordance with the waste management service fees.

Waste management regulations

The city's waste management regulations determine which kinds of waste the properties need to sort and collect separately. The waste management regulations apply within the metropolitan area (Helsinki, Vantaa, Espoo, Kauniainen) and Kirkkonummi.

Usually, the more inhabitants, the more waste types is recommended to collect within the property. See further information on [waste management regulations](#) (PDF in Finnish).

Waste type	Property	Other property
Mixed waste	always	always
Biowaste	10 apartments	50 kg / week
Cardboard	10 apartments	50 kg / week Cardboard separately if over 50 kg / week
Glas	20 apartments	50 kg / week
Metal	20 apartments	50 kg / week
Paper	According to waste act	According to waste act

Properties with less than ten apartments can contact our customer service to request the opportunity to have containers for the above mentioned waste types on their property. You can also compost biowaste on your property. Ask for further information: jate.kuljetuspalaute@hsy.fi

Plastic packaging waste

We recommend to use a HSY rental waste container for collecting plastic packaging waste. [See rental fees](#) for containers. You can also use your own waste container.

We collect plastic packaging waste always up to once a week in the beginning, but if it turns out that the property produces more plastic packaging waste, the collection frequency can be increased to twice or three times a week.

Fees for 140-240 l and 660 l containers

Annual fees include the rental container. Fee for 140-240 litre container is 0.25€/week and 660 litre container rental fee is 0.47€/week.

Paperboard

NB. We do not take new orders for collecting paperboard. You can order a cardboard container for your property, which includes brown paperboard collection. Read more [about cardboard](#) .

We recommend to collect paperboard into a HSY rental trolley. Fee for rental trolley is 1,29 € / week. We can collect paperboard once a week, every second week, every fourth week or every eight week.

Collection	Fee / € / each
Regular collection for roller cage (flattened paperboard)	8,75
Collection for the roller cage, ordered separately (flattened paperboard)	13,19
Collection for paperboard container (140-800 l)	8,74

Fee for collection for paperboard bales less than 30 kg is 8,74 € / each.

Excess paperboard waste	Fee €
Collection with the regular collection	17,61/ m ³
Collection ordered separately (minimum charge 0,5 hours)	91,22 / hour

Glass and metal

Glass and metal container rent is included in the collection fee. Glass- and metal containers can be collected every other week, every four weeks or once in eight weeks.

Container	Collection € / each
240 l glass container	6,21
240 l metal container	6,21
Deep collection container	35,99

Excess waste

Waste that has been placed outside the container is excess waste. Biowaste packed in a plastic bag is charged as mixed waste.

Maximum amount for excess waste is 2 m³ or 15 kg / sack. Order a collection for a bigger amount of excess waste from our [customer service](#). Minimum invoicing amount is 0,1 m³ (100 litres). You can also order a pick-up service for bigger items. Read more about [Sortti pick-up service](#).

Christmas trees are collected free of charge!

Waste	Fee € / m ³
Mixed waste (items, boxes, sacks etc.)	30,00
Biowaste (garden waste, biodegradable sacks)	28,00
Cardboard and carton (cardboard boxes, packages)	20,00
Plastic packages	14,78

Properties that produce small amounts of waste

The service is meant for small properties, with 1-2 residents, that have submitted a composting notification and can show that the amount of waste that needs to be collected from the property is exceptionally low.

The service includes the collection of up to two refuse sacks per year, ordered as necessary. The property will acquire a refuse sack of waste container and place it in a way that facilitates its emptying.

Annual waste management fee 34 €.

Regional collection fee in Kirkkonummi

A regional collection fee is charged for mixed waste that is delivered to the Porkkala and Långvik regional collection points or Kirkkonummi Sortti Station. This service is available for holders of holiday homes and those around-the-year property holders whose properties are inaccessible by garbage trucks.

A certificate proving that the fee has been paid must be presented upon request when waste is dropped off. The service only covers household mixed waste. Construction waste, furniture that is no longer needed and other large waste must be delivered to the Kirkkonummi Sortti-station.

The fee for regular residents is 93 € per year and summer residents 35 € per year.

Part-time collection and interrupting collection

Collections can also be arranged to follow a specific schedule for a specific period of time (for example for summer homes).

If the property is unused for at least four weeks, collection can be interrupted for a specified period of time. A notification must be submitted to HSY no later than one week before the planned start of the interruption.

Fees for emptying septic tanks and closed tanks

Orders for emptying services at HSY Customer Service weekdays between 8.30–15.30:

- Tel. 09 1561 2110

Emptying fees include the sludge processing fee and 24 % VAT.

Transferral with a sludge vacuum truck from one sludge well group to another is 35 € / transferral on the same property.

Transferral fee includes a transfer up to 0,5 kilometers.

When placing the order for septic tanks and closed tanks, HSY must be informed if the suction truck cannot get any closer to the tank than 40 metres or if there will be other operations taking place at the same time which will hinder the tank emptying procedure, e.g. earth removal. The charge for extra work is € 80.00/hr. The minimum charge is per 0.5 hr.

Emptying of sludge loads over 14 m³ must be agreed upon separately.

Transferral with a sludge vacuum truck from one sludge well group to another is 35 €. The charge for extra work is 80 €/ hour.

Sortti pick-up service

Order the Sortti pick-up service to pick up your bigger waste items. The service is meant for bigger items that do not fit in the normal container and cannot be transported in the regular waste transportation, e.g. old fridge, freezer, oven, sofa or other household fixture. Read more about Sortti pick-up-service on [our website](#).

Waste treatment fees

Weighed waste loads

Waste loads transported by truck or other large vehicle are accepted at the Ämmässuo Waste Treatment Centre in Espoo. Espoossa (open Mon-Fri from 7 am to 5 pm).

The customer (the producer and the holder of the waste) must be aware of the quality, characteristics and origin of the waste in his/her possession as well as its suitability for landfill use, and be able to provide this information upon delivery. A Waste Transportation Document is required for certain types of waste in accordance with current legislation.

The treatment fee is determined by the weight of the waste load, the type of waste and the quality of waste. The load is assessed at the reception. If a load includes several different types of waste, the fee is determined based on the most expensive type of waste.

Fees for contaminated waste are determined based on agreement.

HSY will charge the customer for any additional costs incurred from waste being directed to incorrect treatment as a result of missing or inadequately filled documentation, such as a missing Waste Transportation Document or incorrect waste type declaration.

190	6.9	11	7	5	3	4	3	1/4	1/4	
200	7.3	12	7	5	3	4	3	1/4	1/4	

The table is based on the following estimates of the amounts of waste generated:

- Mixed waste 5.2 litres/resident/day
- Paperboard 1.4 litres/resident/day
- Biowaste 0.57 litres/resident/day
- Recyclable paper 1.4 litres/resident/day
- Glass and metal 0.1 litres/resident/day.

The number of waste containers is standardised. The waste amount generated on properties is influenced, besides the number of residents, also by the resident-based structure and the purpose of the property, among others. The

number of waste containers needed on the property also depends on how many waste collection points there are on the property.

HSY's website (www.hsy.fi) features an online service that residents can use to order waste management services for a property and modify the contents of the service.
